

NEWS MAY 2018

We have very exciting news to share with you. Over time we have expanded our service offering and we have learned a lot from co-creating multilingual events and communication activities with you. Technologies were added to our portfolio, language services evolved beyond mere translation, and our 20-year experience in the field allowed us to create innovative training programs for our key target groups. And we have not just updated our products and services... we have gone all the way and moved them into a new environment...

Can you hear the drum roll too? That's our brand new website calling you for a visit. Stop by at www.presencegroup.eu and let us know what you think!

Data protection

This new website comes at the right time, not only because we want to give a clearer image of our activities, but also because we want to make sure that you can surf around the site knowing that your data is used only to the extent that you want it to. While we cherish our contact with you, we are committed to your being in control of what you share.

Let's keep in touch!

Staying in touch with you enables us to help you grow your business. It also gives you access to new services that have been developed in partnership with all of our stakeholders. For us, it is a unique opportunity to interact with the most diverse audience one could possibly wish for. We very much would like to continue working with you through dialogue and partnership but we understand that you want to know how we use your data. Data privacy equates individual freedom, enabling all of us to lead the lives we want without unwanted interference. For Presence, data protection is not just a legal obligation, it's a promise to our stakeholders.

Privacy Promise

Presence provides you with full transparency as to how we use your data.

You can find the Presence Privacy Promise [here](#).

If, for any reason, you do not want us to be in touch with you in the future, please tell us [here](#).

Best wishes,

Ben De Goignies

CEO
